Looking after your

Leatherette

Needless to say, if something spills on sofa, you must wipe it off immediately, The best care that we can recommend is wiping, the piece regularly with soft muslin cloth to remove all the dust, that accumulates in the corner and crevice, regular wiping can also enhance the sheen of the leatherette.

In case of coffee,tea, etc spills

Use an absorbent cloth or piece of paper

We will strongly advice to NOT to rub the leather! Allow the stain to be absorbed until it is removed from the material surface.

Rub it very gently with a tissue paper applying gentle force in circular motion

Oil stains

Use an soapy cotton cloth and gently rub it in circular movements.

After this use a clean, humid, cotton cloth to wipe off the area.

In case of dust

To remove dust, it is advisable to use a vacuum cleaner or a soft brush.

Protect From direct sunlight.

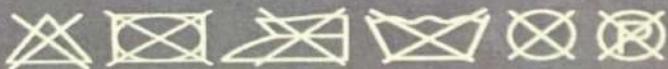

Warning

Do not use sanitizers,solvents,concentrated abrasive or solvent cleaning products and wax polish.

We are not responsible for damage from bleach use,chemical cleaning or additional impregnation.
